Focused On Dental Care Excellence

Excellence is built on experience. As an industry leader, Benevis has been connecting kids and their families in underserved communities to high-quality dental care for **20 years**. The truth is, low-income families are at a disadvantage when it comes to their dental health. With limited or no insurance, they have higher instances of disease, and their children suffer the long-term consequences of poor oral health. That's why at Benevis we are committed to upholding clinical standards of care, with emphasis on prevention through early intervention.

Connecting Communities to Care

Access to quality dental care should be easy, especially when it's essential. At Benevis, our clinicians deliver an experience that's personalized to every patient's health and lifestyle needs. We partner with Head Starts, schools, Federally Qualified Health Centers, and other public programs to ensure everyone has access to high-quality care. Plus, Benevis dental offices are conveniently located near underserved communities, making them that much easier to reach.

~50%

of kids on Medicaid didn't receive dental care in the last year per the Health Policy Institute.[1]

Building A Dental Home For Regular Care

Personalized Treatment Plan: We customize care and treatment plans to every patient's unique needs.

Quality Care & Education: We meet patients where they are and help them understand their individual plan of care, covering everything from selfcare to an upcoming procedure. We educate on the importance of preventive care through regular screenings and continued, high-quality oral health.

Flexible Scheduling: We work around patients' and parents' busy schedules.

Medicaid-Focused: We are dedicated to serving Medicaid-dependent households, and we care deeply about our patients and surrounding communities.

Benevis Dentists: How Purpose Drives Our Practice

Benevis connects **350+ dentists** from top schools around the country to communities where their need is greatest. With the ability to practice anywhere, our dental professionals choose to serve the underserved by bringing quality care and compassion to families who rely on Medicaid.

| 30%

have **6+** years of practicing experience

| DDS & DMD

degrees from the top doctoral programs in the U.S.

Dentists Stay

37% with Benevis for 3-6 years and **20%** for **7-14** years (twice the national average of associate dentists' stay)[2]

Guidance & Support

Exceptional Compliance & Safety Standards

Our Better Benevis Compliance Program, established over two decades, improves the quality of service and care that our dentists, caregivers, and operational teams deliver to our patients. Through it, every Benevis team member understands the importance of medical documentation, billing accuracy, and reporting compliance concerns. We take clinical quality to the next level, maintaining the highest standards and guidelines for safety, cleanliness, and treatment established by Medicaid and the agencies that regulate dental offices and care.

Comprehensive Services

Here's how we help children and their families smile with confidence:

- Preventive care
- Restorative care
- Orthodontics
- Oral surgery
- Emergency care
- Education

"I've been working as a dentist with Benevis for 13 years, and I'm really proud to be a part of our mission of making people's lives better by delivering high-quality dental care in a fun, compassionate environment."
